### Geography

### Study design / key knowledge notes

#### **Unit 2: Area of Study 1 – Outcome 1** **Characteristics of tourism**

- The location and distribution of different types of tourism and tourist destinations
- The characteristics of ethical tourism
- The changing characteristics of tourism over time
- The economic, social, political, environmental and cultural factors affecting the different types of tourism at selected locations from two different parts of the world, such as:
  - natural and human characteristics of host destinations
  - changing income and lifestyles
  - regional occurrences, for example major events, disasters, diseases, and economic and political situations
- the spatial association between factors affecting different types of tourism.
